

RIVER BATH HOUSES TO RUN THIS YEAR

Health Board Also Demands
Floating Pools Obey Rules
or Quit Business.

NO PERMIT FOR
BEACHES IN 1915

Action Blow to Tammany Hall
Man and Other Hudson
Riverfront Owners.

Philip F. Donohue, treasurer of Tammany Hall, and two other owners of bathing beaches on the Hudson River front of Manhattan Island will, through the action of the Board of Health yesterday, be able to run their establishments for the year 1914. They will be refused permits, however, in 1915.

This action of the board was taken in association with the unravelling of the knotty bathing problem. The floating baths, whether owned by the city or otherwise, will have to conform to regulations or go out of business. These regulations, told of in The Tribune for the first time a month ago, were adopted yesterday.

In brief, the regulations stipulate that all floating bathing pools are to be water-tight. All waste water must be discharged outside the pool. The water in the pool, if from the harbor or river, must be filtered through sand, or be separated by other mechanical means, and then be so treated by the use of hypochlorite of lime, ultra-violet rays or other means as to make it clean and sanitary. No person with a contagious, infectious or communicable disease is to be permitted in the pool.

Donohue, according to his own statement, has a five or six years' lease on the site he maintains as a bathing beach. He intimated recently that if a permit was denied to him he thought he would "have something on the city," and left no doubt that he would go to court.

Regarding the bathing beaches, the Department of Health will not insist this year on their abolition. An official statement said:

"In explanation of this stand with regard to the bathing beaches which are at present more than 500 feet from sewer outlets, and therefore have been permitted to operate up to the present time, it must be noted and be a matter of common knowledge to every one that the water flowing about Manhattan Island is so polluted that the nearness or distance from any particular sewer does not materially alter the fact that the entire river water is unfit for further use for general bathing purposes."

Sterilization of bathing suits and other sanitary measures govern the use of the bathing beaches. The board made more rigid yesterday the regulations regarding the use of all houseboats or camps and bungalow sites.

CAPE COD CANAL OPENED

August Belmont Performs Ceremony Uniting Two Bays.

Bourne, Mass., April 21.—The waters of Massachusetts and Buzzards Bay met for the first time to-day in the Cape Cod Canal. While the "cape" is now an island, the canal will not be ready for navigation for two months, and then only by craft of less than twelve feet draft.

The removal of the last dike was accomplished with some ceremony, all the canal officials, including August Belmont, president, being present. Standing on the narrow barrier Mr. Belmont poured together the contents of two bottles, one containing Massachusetts Bay water and the other water from Buzzards Bay.

"May the happiness and prosperity to our country and save some of the misery which the waters of the cape have caused in the past."

STRICKEN WHILE TANGOING

John Noyes Failing Succumbs to Heart Disease.

East Orange, N. J., April 21.—John Noyes, 52, of 23 North Grove st., was stricken with heart disease while tangoing last evening at the home of Harry S. Banghart, at 23 North 17th st., and died before medical assistance came. Mr. Noyes was connected with the Plymouth Mills Rux Company, of New York.

He is survived by his wife, a son and a daughter. He was a member of the New York Carpet Club, the Philadelphia Carpet and Rug Association, the Lake Hopatcong Yacht Club, the Grove Street Tennis Club and was chairman of the entertainment committee of the Columbia Club. Deputy County Physician J. Herbert Simmons granted a burial permit.

Piano Maker, Ill, Needs Help.

A piano maker who has worked for years at his trade and earned the reputation of being a first class mechanic and a sober, honest man is ill and at the end of his resources. He is suffering from an incurable disease. There are four bright youngsters in the home that he helps his wife make so clean and comfortable, and money is needed to keep them. Their mother has found work that brings her \$4 a week, and a like sum in addition is necessary to permit her to meet their expenses.

The Charity Organization Society asks for \$100 to provide this for six months. Gifts may be sent to the office of the society, 105 East 23d st. The society acknowledges with thanks the following contribution sent in response to a previous appeal in The Tribune: "Henry K. Morgan, Jr., \$50."

New York Tribune Coupon

Wednesday, April 22, 1914.

This coupon and six more of consecutive dates from The Daily and Sunday Tribune (7 coupons in all) and 98 cents cash, presented at The Tribune Office, entitle the holder to a copy of

N. Y. CITY BILLS SIGNED BY GLYNN

Governor Approves All but One
Measure Sanctioned by
Mayor Mitchell.

Albany, April 21.—With the exception of two or three local bills, which he will act on Thursday or Friday, and one which he vetoed, Governor Glynn has to date signed all the New York City bills that passed the Legislature and were approved by Mayor Mitchell. The one vetoed, which provides for the impairment of the teachers' permanent fund, is told of in another column.

Among the more important measures signed by the Governor are:

The Conkling bill, regulating the height of buildings.
Two bills, introduced by Senator Simpson, affecting the traffic squad, one increasing the number from 50 to 1,000, and one making more stringent the punishment for violation of traffic regulations.

The Simpson-Hoff bill, abolishing the present school census board and transferring to the Board of Education the work of making a school census, in connection with the enforcement of the compulsory education law.

Several bills wanted by Chief Magistrate McAdoo, including the Griffin-Thorn bill, permitting the issuance of a summons for violators of Fire Department regulations, instead of arresting them.

The Simpson-Walker bill, giving jurisdiction to the night courts of New York County to dispose of offences committed in the Bronx.

The Torborg bill, giving the Park Department power to grant vacations to day laborers at any time, instead of during the months of June, July, August and September.

The Herlick-Stoddard bill, establishing a department of licenses, and the Herlick-Crane bill, making more effective control over licensed auctioneers.

The McClelland bill, making easier the enforcement of Dock Department regulations.

The Heffernan bill, permitting the possession of pistols and revolvers under license.

The Pollock-Phillips bill, permitting the transfer of members of the aqueduct police to the city police force.

TENDERLOIN HAS NEW CZAR

Inspector Morris, from Bronx,

Takes Charge of District.

The Tenderloin district, which has been without an inspector of its own since Gillen was reduced to captain and suspended to answer charges, is to be looked after from now on by Acting Inspector Frank Morris, who comes down from the Bronx to take charge.

He succeeds Inspector Calanahan, whose regular district is on the East Side, and who also has supervision of the School of Reformatives. Commissioner Woods and subordinates in the department have no doubt that Morris will make good in the Tenderloin.

Inspector John D. Herlihy's retirement was announced yesterday from Headquarters. He has been in the department since 1877. He was made captain in 1896 and has been an inspector since 1909. His most recent command was Staten Island, which, with The Bronx, is left for the time being without its own inspector.

TAKES REGISTERED MAIL

Robber Steals Twenty Packages from Southern Pacific.

Los Angeles, April 21.—Twenty registered mail packages were the loot obtained by a man who robbed a United States mail car on a Southern Pacific train which left here last night for San Francisco.

The man boarded the train on the outskirts of the city, threatened the mail clerks with a revolver and jumped off when the train slowed down for a crossing near Tropic, a few miles out. The value of the packages has not been determined.

Zuro Opera at the Grand May 3

Louis Zuro has announced that, beginning on May 3, he will start a season of grand opera in Italian at the Grand Street Theatre. This theatre has been leased by Mr. Zuro for eight weeks, and a company of singers will appear in a

HOSIERY TOURNIQUET SAVES YOUTH'S LIFE
Girl Rescues Fainting Fire Hero and Binds Up Wound with Her Stocking.

An invalid woman and a young man who tried to save her were burned yesterday when a fire drove forty families out of the five story double tenement house at 22 East 65th st. Miss Ethel Youngman, a worker in the Henry Street Settlement House, saw the youth collapse, ran to the roof of the building and carried him over to No. 24, where she removed her stocking, made a tourniquet and then bound up a gash in his heel which the young man had received when he tried to kick out a square of glass.

Just as Miss Youngman finished her work Dr. Beard and Dr. Witmarsh arrived from Flower Hospital with two ambulances. Both physicians said the settlement worker had done as good a job as they could have done. The young man, Edward Elliott, of 16 North 9th st., Woodside, Queens, was taken to the hospital, as was Mrs. Julia Buckley, whom he tried to rescue.

Elliott had received his injuries without ever seeing the woman he went to save. He knew simply that some one was on the top floor of the building. While he was trying to find her she summoned strength enough to leave her bed and take her daughter to the street.

The fire started in the Buckley apartment on the top floor, and burned through the roof, causing a loss of about \$1,000.
